Good Morning Roger!

I wanted to write and thank you, and your team, for the superb job of moving us into Carrington Square. As you well know, moving can be a trying task and one not usually looked forward to.

But from the very beginning, your approach to moving gave us assurance that you would handle things professionally. I was impressed with the way you calculate estimates. I also appreciate the "moving tips" you offered. They showed us how we could lower the cost, which saved us money.

By the way, your team arrived precisely on time. And they went about our move exactly as you said they would, completing it right on time. And not one footprint or scuff-mark.

Thanks again, Roger. It was a pleasure doing business with you.

Sincerely,

Drew Allen Miller
